

Drum Crusher/In-Drum Compactor

Reduce Disposal Costs

- **60,000 lbs. compaction force** reduces drums to 4" pancakes
- **Rugged**, fully enclosed compaction chamber
- **Automatic** push button controls
- **Safety interlock** prevents operation if door is open
- **Second compaction head** quickly converts drum crusher to in-drum compactor
- **Location plate** keeps drums centered in chamber
- **Forklift pockets** allow for easy removal of heavy compacted drums
- **Large feed area** accepts even 5-gallon pails for in-drum compacting
- **Options** include xp motor, drip pan, remote operator station and platen spike

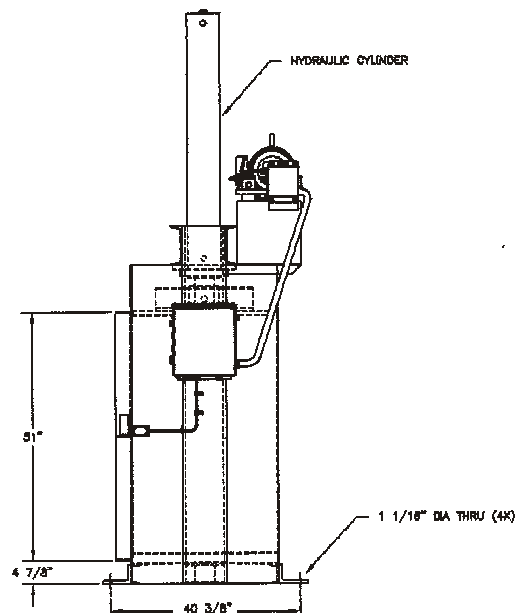

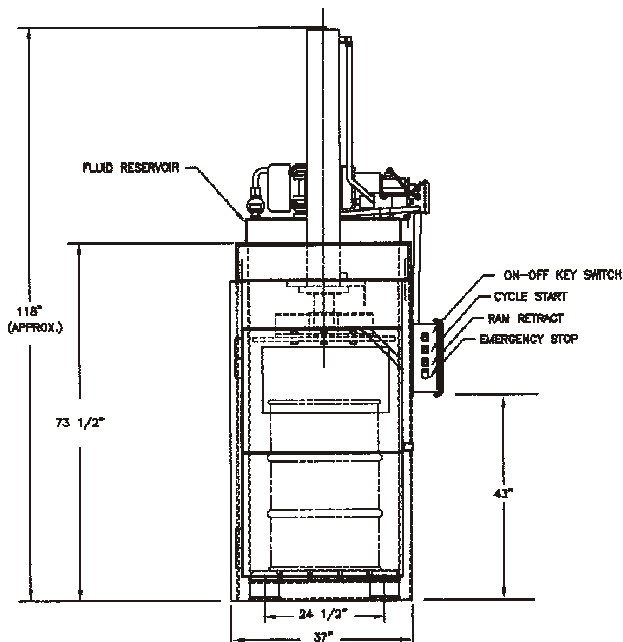

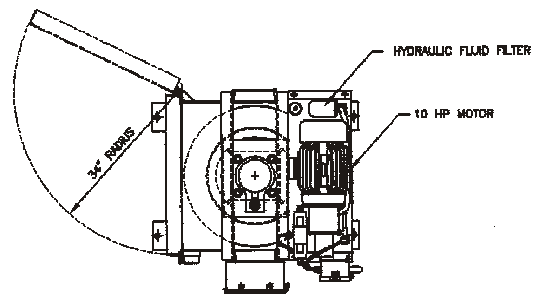

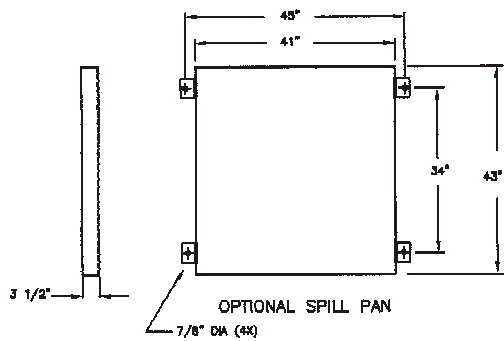

EIGHT DRUMS CRUSH TO A HEIGHT OF 4"
EACH TO OCCUPY THE SPACE OF ONE
DRUM

**Totally Explosion Proof
Drum Crusher For Use In
Class 1, Div 1 Hazardous
Areas**
